2 HP Dust Collector

DESCRIPTION

This SHOP FOX® Dust Collector features a 2 HP motor and an extra Heavy-Duty 12" steel impeller that moves 1,550 cubic feet of air every minute. When it comes to performance and value, this one is hard to beat! For wood dust only. Models manufactured after June 2015 come with a 2.5 micron felt upper filtration and a plastic (PE) lower collection bag. The upper 2.5 micron bag (D4572) and lower plastic bags (D4573-5pk) can be purchased separately for any collectors that do not include them.

5 HP Shaper

DESCRIPTION

This 5 HP Spindle Shaper is sized to handle large raised-panel doors and extra-wide moulding profiles. With three included spindle sizes (3/4", 1", 1 1/4") and four spindles ranging from 3600 RPM to 10,000 RPM, choosing the right shaper cutter for the job will never again be a problem. The long spindle lengths also allow total flexibility for running tall cutters or stacking multiple cutters and spacers. Its heavy cast-iron split adjustment fence lets you dial in just the right amount of offset for edge profiling, and the heavy cast-iron table and stable base are made for the toughest jobs. This Shaper is made for production!

13-1/4" Oscillating Floor Drill Press

The W1873 15" Fixed Table Planer features a powerful 3 HP motor and 5200 RPM, 3-HSS knife cutterhead. What makes this planer unique is the fixed table height that is ideal for setting up with permanent infeed and outfeed roller tables allowing for greater efficiency in production settings. The 2-speed gearbox allows you to choose between 16 and 28 FPM for a smooth finish or high-production feed rate. The headstock sits atop a sturdy four-column support with easy handwheel height adjustment thanks to the twin gas struts on either side.

15" 3 HP Fixed-Table Planer w/Helical Cutterhead

DESCRIPTION

The W1874 15" Fixed Table Planer W/Helical Cutterhead features a powerful 3 HP motor and 5200 RPM, 4-row helical cutterhead. The fixed table height design allows for permanent infeed/outfeed roller setups for greater efficiency in production settings. Carbide inserts with 4 cutting edges make for ultra-smooth finishes in figured wood and last up to 10 times longer than conventional knives. The 2-speed gearbox allows you to choose between 16 and 28 FPM for a smooth finish or high production feed rate. Sturdy four-column supports with twin gas struts on either side make for easy headstock height adjustments.

Grizzly 15" Disc Sander with Electronic Brake

DESCRIPTION

Experience precision and control with a professional-grade disc sander. Are you tired of spending hours sanding by hand? The G0719 15" Disc Sander will help you finish sanding projects faster, more efficiently, and with greater precision. The large 12" x 20" cast-iron table provides extensive capacity and tilts -15 to 45° for bevel sanding. X- and Y- miter slots allow for more stability and controlled sanding of the workpiece. They also allow for sanding at precise angles, which is useful for more detailed projects. The 1-1/2 HP, 1725 RPM direct drive motor has plenty of power for all day use in your shop. The electronic brake is an added safety feature that engages when the stop button is pushed and completely stops the disc in less than 7 seconds. The 2-1/2" dust port easily connects to your dust collector. In case you don't have one, the dust port is also compatible with most shop vacuums.

DESCRIPTION

This Roman Carbide Forstner Bit Set includes 15, 20, 25, 30, and 35mm forstner bits. Each bit features two cross tips and center cutter for smoother, faster and chatter free cutting. Hex shanks will not slip and fit 3/8 inch drill chucks. Micro-grain carbide cross tips and center cutter stay sharp longer and can be resharpened for years of dependable service. Ideal for drilling hard and soft woods, face grain, end grain and figured grain.
